

## SAFETY CASE CONSULTANT

CRA is a safety, risk and reliability consultancy providing bespoke services to safety-critical industries.

These include Nuclear, Process, Power, Rail, Business Risk, Cyber Security and Defence. Our multi-disciplined risk consultants are at the forefront of data analysis and are leaders in the fields of:

- Nuclear PSA
- Safety Case
- Human Factors
- Risk & Reliability (RAMS)
- Industrial Process Assurance
- Technical Safety
- Rail System Safety
- Business Risk
- Advanced Risk Analytics

CRA is committed to developing the next generation of Safety, Risk and Reliability experts through its ambitious training and development programme and partnerships with UK universities.

As a result of growth within our business, we are currently looking to bring on board experienced Safety Case Consultants with specific knowledge of either operating Nuclear Power Stations or New Nuclear New Build in the UK.

Technically, you will support the Key Stakeholders as appropriate in submitting the Safety Case to the various approval stages and provide formal responses to comments raised at the various approval stages. Given your technical expertise you will produce and verify calculations, analyses, design basis documentation and technical reports as required to support safety case work.

To be successful in this role you will have had a number of years within the Technical Safety industry focusing on projects within the UK Civil Nuclear sector, and preferably hold authorised roles within key nuclear generation clients. You will have had a proven track record in delivering a range of Safety Cases across several projects. The successful candidate should also be technically proficient in applying client's safety case methodologies and processes such as HAZOP, HAZAN, PSA, ALARP and/or Reliability Assessments.

Ideally you will have a degree in a Science, Technology, Engineering or Maths based subject, be a full member of an appropriate institution (e.g. IMechE, IChemE, MInstP) and have, or be working towards, Chartered or Incorporated status.
