

PRINCIPAL/CHIEF CONSULTANT - DECOMMISSIONING & RADIOACTIVE WASTE MANAGEMENT (DRWM)

CATEGORY:

Nuclear

TYPE:

Principal/Chief Consultant, Permanent Full Time

LOCATION:

Flexible between London, South West England, North West England and Scotland.

SALARY:

Attractive remuneration package

GENERAL DESCRIPTION:

- CRA is seeking to employ a Principal/Chief Consultant to lead the development and delivery of consultancy to the UK & European Decommissioning and Radioactive Waste Management (DRWM) market.
- As an industry-respected professional of more than 15 years' experience, you will be able to demonstrate a unique selling point in the field of DRWM, particularly in the area of Safety Case.
- You will be passionate about growth in terms of: leading industry thinking in your specialist area; providing expert advice; and support to internal and external stakeholders.
- Reporting initially to the Service Lead for Nuclear Safety Case, and working strategically, and in unison, with the CRA Business Development Manager.
- You will lead the identification and development of business opportunities associated with the UK & European DRWM markets and will also be responsible for managing key client relationships ensuring that clients receive the highest quality of service.
- As the DRWM business grows it is expected that a new Service Area specific to DRWM will be created and that the incumbent Chief Consultant will lead this business area, reporting directly to the CEO of CRA.
- CRA's culture has three values at its core; Quality, Integrity and Leadership. You will be expected to espouse CRA's values at all times.

QUALIFICATIONS:

- Degree qualified (Bachelors, Masters, Doctorate) in a subject relevant to your DRWM expertise or have HND plus extensive experience

EXPERIENCE:

- Extensive technical experience on UK and/or European DRWM projects.
- Proven Safety Case experience with a consultancy background, or extensive management with a contractor or client organisation.
- Comfortable working as part of an integrated multidisciplinary team, and being familiar with local practices, processes and standards employed.

- Significant involvement in the delivery of DRWM Safety Cases.
- Recognised ability to work and lead across multiple projects.
- Strategic planning and delivery.
- Developing and commercialising business opportunities.
- Building, developing and leading a team.
- Mentoring.
- Leadership and management of the development of complex Safety Cases.
- Manage internal and external stakeholders at various levels and to nurture client relationships.

CORE SKILLS AND KNOWLEDGE:

- Comprehensive knowledge of the UK & European DRWM markets.
- Ability to successfully judge future needs of the market.
- Natural penchant for developing business.
- Desire and ability to build, develop and lead a team.
- Strategic planning and delivery.
- Must be able to demonstrate leadership and management of the development of complex Safety Cases.
- Demonstrated ability to manage internal and external stakeholders at various levels and to nurture client relationships.
- Thorough understanding of current industry best practice, safety regulations and safety assurance throughout the market.

KEY ATTRIBUTES:

- Inspirational, both technically and personally.
- Enthusiasm to develop the careers of others in a growing a DRWM consultancy environment.
- Immediately leverageable currency in UK and Europe.
- Significant professional network in the UK.
- Excellent written and oral communication skills.
- Exceptional problem solving ability.
- High level of IT proficiency, computer literacy, MS Office Suite.
- Ability to think logically and creatively.
- Highly developed report writing and presentation skills.

DESIRABLE:

- Chartered in a relevant institution.
- Strong project management experience.
- Proposal writing.
- Technical Sales process.
- Strong mentoring skills/experience.
